An Affiliate Fund of the East Bay Community Foundation

To Whom It May Concern:

Union City Friends (UCF) was founded in 1997 with a grant from the East Bay Community Foundation (EBCF). UCF is an Affiliate Fund of the EBCF, and operates under its umbrella, including the contractual use of its 501(3)c status. A copy of that agreement can be obtained from either EBCF or UCF.

UCF, under the guidance of the EBCF, raises money, provides grants, and supports projects that cultivate, develop, serve or support the public interest in nonprofit projects within the City of Union City. One such activity involves providing financial assistance and structure for events or projects that do not have their own nonprofit Federal Tax status, but which have been deemed worthwhile endeavors by both the Board of Directors of UCF and the management of the EBCF.

The Flight 93 Memorial of Union City is currently one of those projects. Union City Friends, its parent the East Bay Community Foundation, and Michael Emerson, the Project Manager for the Flight 93 Memorial, have created a charitable fund that provides an administrative structure and financial framework for this project. All goods, services and financial support of any kind donated to the Memorial are the property of UCF and EBCF, and are administered per the agreement.

Donations to the Flight 93 Memorial of Union City are to be made out to Union City Friends and deposited into the Fund created for this project by the East Bay Community Foundation, under their 501(3)c status. Acknowledgement of donations are handled by the Project Manager, approved by the Executive Director of UCF and the Fund Manager of the EBCF.

The above information is attested to as correct by the following:

Robert G. Swartz

Executive Director, UCF

Michael Emerson

Project Manager, Flight 93 Memorial of UC
